

SH Series Shredders

Protect confidential information and avoid costly shredding services.

SH Series shredders cut sensitive documents into tiny pieces to keep your information safe.

Designed for the home or office, the SH Series Shredders offer automatic start-and-stop shredding with Easy-Switch control. Safety Protection Systems (SPS) is an electronically controlled safety flap that detects items in the feed opening and automatically shuts off in case of emergencies.

Shred private materials with our professional line of quiet, quick and reliable shredders.

Power through jobs with these premium features:

Easy-Switch

Enables ease of operation. The intelligent multifunction switch element with integrated optical signals indicates the operational status. Includes an additional "emergency switch" function.

Patented Safety Flap

The electronically controlled safety flap in the feed opening to keep fingers, ties or other objects away from the cutting shafts to maximize safety.

Convenient Shredbin

The environmentally friendly shred bin can be removed easily and cleanly from the cabinet. The bin can be used with or without the disposable shred bag.

ECC (Electronic Capacity Control)

To avoid paper jams, this electronic feature indicates the used sheet capacity during shredding process.

Electronic Oil Injection

The automatic oil injection system lubricates the cutting shafts when shredding to guarantee a constantly high shred performance*.

*Offered with the SH3C Shredder only.

SH0C Light Duty Shredder

Features efficient light duty cross-cutting shredding while saving space in your home or small office setting.

SH1B Office Shredder

Do more with Easy-Switch control, Safety Protection System automatic start and stop shredding that shreds up to 18 pages at a time.

SH3C Office Shredder

A feed opening of up to 15.7 inches for more shredding power. Plus, it includes a large 363-pound shred bin volume for your convenience, and an oil injection system.
